

MOHAMMED SAED SIDIBE

Calgary, Alberta | (825) 935-4414 | mosidibe15@gmail.com

PROFESSIONAL SUMMARY

Chemical & Petroleum Engineering graduate (M.Eng.) with hands-on laboratory and quality-testing experience alongside 10+ years in heavy industrial process operations. Skilled in laboratory testing, sample preparation, equipment calibration, data analysis, and SOP development, with a strong foundation in chemical reactions and chemical interactions gained through process simulation, mass/energy balance work, and applied chemical engineering coursework. Proven ability to work safely and accurately in fast-paced technical environments, document results clearly, and collaborate across multidisciplinary teams.

CORE COMPETENCIES

Laboratory Testing & Sample Preparation • Equipment Calibration • Qualitative & Quantitative Analysis • Chemical Reactions & Interactions • Data Analysis & Data Entry • SOP & Experimental Procedure Development • Lab Safety & Chemical Handling • Quality Control/Quality Assurance • Technical Documentation & Reporting • Process Simulation • Root Cause Analysis • Microsoft Excel & MS Office

EDUCATION

Master of Engineering, Chemical & Petroleum Engineering
University of Calgary

April 2026

Bachelor of Science, Chemical Engineering
Kwame Nkrumah University of Science and Technology

2014

ADDITIONAL PROFESSIONAL EXPERIENCE

Process Engineer

Jan 2023 – Aug 2024

Volta Aluminium Company Limited (VALCO)

- Analyzed operating data using structured data-analysis methods to improve process reliability, increasing current efficiency by 5% and product purity by 2%.
- Conducted engineering evaluations, inspections, and root cause investigations to identify process and equipment improvement opportunities.
- Supported ISO compliance initiatives through procedure development, SOP writing, and process standardization.
- Prepared technical reports and performance analyses summarizing test data, trends, and recommendations for stakeholders.
- Supported risk assessments and incident investigations to strengthen plant safety and reliability.

Production Engineer

Sept 2014 – Dec 2022

Volta Aluminium Company Limited (VALCO)

- Conducted routine field inspections, operational audits, and equipment performance evaluations to reduce downtime by 15%.
- Investigated process deviations using engineering analysis and root cause investigation techniques, ensuring accurate data capture.
- Assisted with development of operating procedures and implementation of corrective actions.
- Developed a waste recovery initiative generating approximately \$10,000 in daily value through improved resource utilization and process efficiency.

Quality Control Intern

May 2014-Aug 2014

Tema Lube Oil Company Limited

- Performed laboratory testing and quantitative/qualitative quality analysis of industrial lubricant products, following standard test methods.
- Prepared and handled chemical samples, ran tests, and calibrated laboratory devices to ensure accurate, repeatable results.
- Analyzed test results and translated findings into clear technical documentation supporting quality assurance decisions.

- Maintained lab cleanliness, organization, and adherence to safety and chemical-handling protocols throughout testing activities.

CERTIFICATIONS & AFFILIATIONS

- First Aid & CPR/AED Level C
- Diploma in Anode Production Process – R&D Carbon, Switzerland
- Ghana Institution of Engineers (GhIE)
- National Society of Black Engineers (NSBE)
