

Mohammed Saed Sidibe

Calgary, AB | (825) 935-4414 | mosidibe15@gmail.com

PROFESSIONAL SUMMARY

Experienced Laboratory Technician with 10 years of hands-on expertise in the food processing, lubricant formulation, and aluminum production sectors. Skilled in quality control, chemical analysis, instrumentation, and adherence to ISO and GMP standards. Currently advancing technical knowledge through a Master's in Chemical Engineering at the University of Calgary. Demonstrated ability to work collaboratively in high-paced lab environments and deliver accurate, timely results.

TECHNICAL SKILLS

Wet Chemistry & Titration, Spectroscopy, Chromatography, Lab Safety & Documentation, Statistical Process Control (SPC)

EDUCATION

MEng in Chemical Engineering
University of Calgary, Calgary, AB
Expected Completion: 2026

Bachelor of Science in Chemical Engineering
Kwame Nkrumah University of Science and Technology, Ghana
Graduated: 2014

PROFESSIONAL EXPERIENCE

Laboratory Technician – Quality Control

Volta Aluminium Company 2019 – 2024

- Conducted routine and specialized chemical analyses of alumina, petroleum coke, cryolite, and finished aluminum products.
- Operated and XRF equipment for metal composition analysis.
- Collaborated with process engineers to troubleshoot production issues based on lab findings.
- Ensured compliance with ISO 9001 and environmental safety protocols.

Laboratory Technician – R&D and QC

Tema Lube Oil Ltd 2016 – 2019

- Performed viscosity, flash point, and pour point tests on various lubricant samples.
- Assisted in formulation trials for engine oils and industrial greases.
- Maintained records for audits and ensured products met specifications.
- Calibrated instruments and implemented new testing procedures to improve lab efficiency.

Laboratory Technician – Food Safety & Quality

Cocoa Processing Company 2014 – 2016

- Conducted microbiological and chemical testing on raw and processed cocoa beans.
- Monitored sanitation procedures and participated in HACCP planning and implementation.
- Performed free fatty acid, moisture, fat, and ash tests on cocoa beans.
